Hello, I'm Diana, I'm the administrator of Alkemist Build and Decorate Limited, a construction company trading in London. We specialise in residential projects, which means building lofts and extensions, and doing high quality home renovations. We are highly skilled and committed team that prides itself on being flexible when it comes to every customer's individual needs.

We know that the building or renovating process isn't always as straightforward as it seems at the beginning, but you aim to make it as easy as possible for our clients. Providing a personal service is really important to us. You want to get to know our clients to really understand what the product is and what their dreams for a car. We give our customers comprehensive practical advice that ensures that get the best results in the end.

Our team members are always professional, approachable, reliable and dedicated to making the project run on time and on budget.

Since working with Smart Accounting and Finance Services, our day-to-day business lives have definitely become easier. They're always at the end of a phone when I have a question. And that is so reassuring. They're personable and always answer my questions quickly, which makes me feel like I'm informed every step of the way. They're professional and certainly know what they're doing. They advise us on all aspects of our accounts and are so detailed.

They've helped us to stop paying unnecessarily high tax a large amount of money which we can now pre invest in machinery and the future of the business. They've also helped to free up a lot of my time which before spend trying to understand the numbers. I can spend that time on marketing and getting new clients. Every time I meet with them or have a call, they're so friendly. I really like how different they are. **They care about my business like is their own and I trust them to do the best job. I would definitely recommend smart accounting and finance services for anyone looking for unique, professional and proactive accountants. Therefore, Big Firm quality with small firm friendliness.**
